

PORTFOLIO — LUIGI MARETTO

Full-Stack Web Developer

luigimaretto292@gmail.com — luigimaretto.com — github.com/Luigi292

Projects Overview

Below are some of the projects I have developed and maintained recently, showcasing a range of skills from frontend to backend and experience with multiple technologies and industries.

AdTecher

Website: www.adtecher.com

Created the website to introduce an AI-powered application and developed the app integrating third-party APIs such as Shopify and AWS. Features responsive user interfaces optimized for various devices. The project is currently in development and unpublished.

Tech Stack: Next.js, React, Tailwind CSS, PostgreSQL, Auth0, AWS SDK, JavaScript.

Meterbolic

Application: In development (Unpublished)

Developing an AI-powered app similar to AdTecher, with integrations and responsive design. Currently under active development and unpublished.

Tech Stack: Next.js, React, Tailwind CSS, PostgreSQL, Auth0, AWS SDK, JavaScript.

Studi Ca Bragadin (Coming Soon Page)

Website: www.studicabragadin.it

Built a minimal landing page with contact information while the full website is under construction.

Tech Stack: HTML, CSS, JavaScript.

Studi Ca Bragadin (Full Website)

Preview: studicabragadin.it/testfinalweb

Full website for a professional service company with responsive layout, dynamic contact forms, and optimized performance. Currently awaiting publication.

Tech Stack: HTML, CSS, JavaScript, PHP.

Studio Eclettica

Website: www.studioeclettica.it

Interior design consultancy providing creative solutions for residential and commercial clients.

Tech Stack: WordPress (Elementor, PHP, SEO plugins).

Multiforme

Website: www.multiforme.eu

Designs and produces custom Murano glass chandeliers and artistic lighting for luxury projects.

Tech Stack: WordPress (Elementor, PHP, SEO plugins).

Ferrulli Costruzioni

Website: www.ferrullicostruzioni.it

Construction company focused on civil and industrial projects across Italy.

Tech Stack: WordPress (Elementor, PHP, SEO plugins).

Miss P Nails

Website: misspnails.com

Beauty salon specializing in nail care, offering treatments and products online.

Tech Stack: WordPress (Elementor, PHP, SEO plugins).

Paola P Box

Website: www.paolapbox.it

Beauty subscription service offering curated makeup and beauty products.

Tech Stack: WordPress (Elementor, PHP, SEO plugins).

Ko Samui Tailors

Website: www.kosamuitailors.com

Premium custom t-shirt and sweatshirt retailer using high-quality Italian cotton and innovative printing techniques.

Tech Stack: WordPress (Elementor, PHP, SEO plugins).

Smart Puppy

Website: www.smartpuppy.tech

Job search and application app developed during the Le Wagon Bootcamp in collaboration with a team of three.

Tech Stack: Ruby, HTML, CSS, Bootstrap, JavaScript.

Game Project

Website: luigi292.github.io/game

Interactive web-based game built with vanilla JavaScript. It features dynamic DOM manipulation and event-based game logic.

Tech Stack: HTML, CSS, JavaScript.
